It's quite the contrary; you'll probably be ahead of schedule. The bottom line is that we all have 24 hours in a day; productivity is being able to make the most of them and create lasting habits of achievement and fulfillment instead of chasing endless lists of tasks. In other words, work smarter, not harder.

## **What is Productivity? A Complete Guide to Being More ...**

1. Partial factor productivity. This formula is made up of the ratio of total output to a single input. Managers tend to use this formula most often because the data is available and easy to access. Also, partial factor productivity equations are easier to relate to specific processes because they only deal with one input.
